SPECTACLES
A Splendid Surgical Operation—Successful Result and Wonderful Recovery.
SURGICAL OPERATION.—The operation of lithotomy (removal of stone from the bladder), one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered several years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.
RECOVERY.—Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases met Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint, the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures Constipation of the Bowels, and all those diseases and weaknesses peculiar to Females. This wonderful medicine is now for sale by all our druggists, $1 a bottle.

I take this occasion to say to my friends and the general public, that, in common with a large majority of the barbers of this city, I believe that we need Sunday for a day of rest and there is not one of the number who exercises their shaving on Sunday, but having been induced in that direction by the *persistent efforts of a certain brother barber.* I feel myself obliged to keep open on Sunday in order to extend a full and accommodation to my customers as others of our profession, and to retain my week-day business.

These Pills have met with the most Remarkable Success as is attested by the Immense Sales they have Attained.
Parsons, Bangs & Co., have had Eighteen Hundred Dozens the Past Year.
Hundreds have testified to the Benefit they have derived from their use in the cure of Sick Headache, Nervous Headache, Neuralgia, Nervousness, Paralysis, Sleeplessness and Indigestion.
It is a Fully Established Fact, Based on Actual Experience, and There is No Kind of Doubt but They Will Cure These Diseases.
DR. C. W. BENSON'S CELERY AND CHAMOMILE PILLS are prepared expressly to cure Sick Headache, Nervous Headache, Neuralgia, Nervousness, Paralysis, Sleeplessness and Indigestion or Dyspepsia, and will cure any case, no matter how obstinate, if properly used. They are not a cure-all, but only for these special diseases. They contain no opium, morphine or quinine, and are not a purgative, but regulate the bowels and cures constipation by curing or removing the causes of it. They have a charming effect upon the skin, and a lovely, quieting effect upon the nervous system, simply by feeding its ten thousand hungry, yes, in some cases starving inhabitants. They make or create nerve matter and give power, force and buoyancy to the nerves, and in that way increase mental force, endurance and brilliancy of mind. Nobody that has a nervous system should neglect to take them two or three months in each year, simply as a nerve food, if for no other purpose. Price 50 cts. a box, or six boxes for $2.50, sent postage free. Sold by all druggists, and by

STATE NEWS.

Cumberland.
Monday the First National Bank of Portland received a letter from a postmaster stating that he desired to send an inclosed registered letter containing the money to pay a note. He stated that when he received the letter he charged it and then put it in his coat pocket intending to forward it. The matter slipped his attention and he has taken the letter from his pocket only a day previous. He could only beg to be forgiven. In the meantime the note has gone to protest and there was quite a little circus. The matter now however has been satisfactorily arranged. How many people however put letters in their pockets and forget to mail them?
Mr. J. W. Spriggen of East Deering was run into by a buggy, Friday night, and a shaft struck him in the hip, inflicting a severe wound.
The little daughter of a gentleman of Portland, was combing her hair before the gas jet with a celluloid comb, when her hand came close to the gas jet and in a minute the comb was in flames burning the child's hand and side of the face severely. The comb was consumed quicker than a piece of paper would have been. It is therefore advisible, after using one of those combs which has become impregnated with oil, to keep it away from fire.

Kennebec.
The Augusta *Journal* says: S. S. Goodrich and L. S. Coney, at their blacksmith shop above the *Journal* office, pulled off the old shoes, put on new ones, and clinched the nails, on forty horses, feet in nine hours and a half, Monday. They are ready to do the same thing again. Who can beat them. We should judge that fully four hundred horses were shod in Augusta, Sunday and Monday.
The house of Mr. C. B. Robinson of Mt. Vernon, about one and a half miles from the village, was totally burned about two o'clock Tuesday morning. Loss probably from $2,000 to $3,000; insured about $1,000. The family had a narrow escape, losing nearly all of their wearing apparel, bedding and one large hog.
At the annual graduation of the medical department at Dartmouth College, Nov. 10, 1880, there were two of graduates who were students of Dr. W. A. Wright, Readfield, Me., Mr. Fred E. Dixon and Frank B. Morrill, both formerly of Readfield. Mr. Dixon will settle at Wayne village. Mr. Dixon's subject at graduation was Typhoid Fever. Mr. Morrill's, Influence of Maternal Mind.

Essex.
F. H. Fasset, the Portland architect, by whose plans City Hall Saco, is being remodeled, thinks it very fortunate for the citizens of Saco that it was decided to make the improvement, for upon examination of the upper timbers running across the hall from side to side, of which there are six, the locks in three were found split off leaving but two small bolts in each to hold the splices together. These three splices had already drawn apart between one and two inches, the worst and most dangerous one being directly under the bell. In Mr. Fassett's opinion, and it is the opinion of many master carpenters who have examined it, the timbers might give way at any time, the walls spread out and the whole top of the structure fall in. The separation of these timbers at their splices had loosened the ceiling to such an extent that it was likely to fall from any slight jar such as might occur during a dance or a crowded ball. Considering the condition the hall was found to be in and the fatal results that might occur even from a falling of the ceiling, is not the money now being laid out on the building well and profitably expended?

STATE OF MAINE.

By the Governor.

A PROCLAMATION.

By the advice of the Executive Council, I do hereby appoint

Thursday, the Twenty-fifth Day of November, Instant,

As a day of Public Thanksgiving and Praise to our Father in Heaven, for His kind care over the people of this State in the year that now closes; living under one common Government, that is grand and strong enough to protect every citizen in the full enjoyment of all his rights, it is nothing that we should unite with our fellow-countrymen upon that day, at the invitation of the President of the United States, in solemn acknowledgment of the goodness of God, wherewith our State and Nation have been so abundantly blest. May the hearts of our people be moved to give earnest thanks that peace and plenty, health and prosperity, prevail throughout all our borders, and that the principles of liberty, established by the Fathers who gave us this service, grow stronger as the years of the Republic go by.

Given at the Council Chamber at Augusta, this fifteenth day of November, in the year of our Lord one thousand eight hundred and eighty, and of the Independence of the United States of America, the one hundred and fifth.

DANIEL F. DAVIS.

By the Governor.

S. S. J. CHADBOURNE, Secretary of State.

THANKSGIVING.

Probably this New England home-festival, which became nationalized during the great struggle for national existence, has never been more cordially welcomed in all parts of the land than it will be to-day.

Abundant cause for thanksgiving can be found on every side, and it is fitting that a people so blessed with prosperity should recognize the Divine favor by setting apart for that purpose a day after the harvests have been gathered and when the storehouses are filled with the bounties of the earth.

Here in New England the annual Thanksgiving has a special charm as the family festival, where the ties of affection are drawn closer around the home fire-side, and the joys of reunion are blended with the thanks and praise.

As the good cheer is brought forth in honor of the occasion, may those who have much remember the less fortunate, and see to it that no humble home shall have cold or hunger for their guests on this Thanksgiving Day.

A correspondent writes: Over the results of the election in Franklin county, the Republicans are feeling very proud. Two years ago the Fusionists had a majority of almost 300; that majority has not only been wiped out, but the Republicans now have the county by 216 majority, a gain in two years of over 500, on a vote of less than 5,000. I think the largest relative gain in the State. In accomplishing this grand result too much credit cannot be bestowed upon the Farmington *Chronicle* which has made a uniform, consistent and able fight for honest money and the principles of the Republican party. Capt. Keyes, editor of the *Chronicle*, also did very efficient work upon the stump during the State campaigns, his speeches being well received and highly complimented.

The Chicago *Times* announces that, in a few months more, the larger part of the type-setting in its office will be done by machinery. It has ordered a number of what are known as the Kosterbein type-setting machine, by which type can be set very much faster than by the present hand method. One advantage to the *Times* of this plan will be that it will enable it to receive news up to a relatively late hour in the morning, and yet get its paper to the mails and on the street at the customary time. There is a type-setting machine in the office of the London *Times*, which is used in connection with a telephone in reporting late debates in the Parliament House; but this machine was, we believe, invented by the originator of the Walter press. Our Chicago contemporary's machines are to come from Belgium, and are asserted to supersede any now in use. The experiment will certainly be watched with interest.

We publish this morning a few of the letters we have received from different parts of the State commending the views expressed in our editorial yesterday in favor of determining the election of Governor in accordance with the Constitution and laws. Our position has received the hearty approval of all the Republicans from whom we have heard any expression, and it cannot fail to be indorsed by citizens of all parties who deem it more important that we have a legally-chosen Governor than that one party or the other control the office.

It strikes us that the heat of discussion has carried Gen. Schofield to great lengths. Undoubtedly the question of educating colored boys as well as white in national institutions is one of moment, and a public officer who has decided views on it is entitled to respect for frankly stating them. But the strong case which Gen. Schofield makes against Cadet Whittaker has nothing whatever to do with his color—it would be precisely as strong against a white cadet guilty of like conduct. What Gen. Schofield does, therefore, is to generalize from the individual instance of Whittaker in regard to the colored race.—*New York Times.*

The reasons assigned by Hon. Thomas B. Reed for declining to compete for the Senatorship will be appreciated by his constituents and the Republican party as evidence that he subordinates personal ambition to their interests. The prominence of Mr. Reed in the Senatorial field renders his voluntary recognition of other party claims upon him all the more conspicuous and honorable. He has already taken rank among the ablest members of the House and will come still more to the front in the next Congress.

The Postmaster General in his annual report concurs in the recommendations of the Superintendent of the Railway Mail Service, for reclassification of employees of that service, readjustment of their salaries, and for pensions to those disabled, or the families of those killed in the service. The Postmaster General thinks it will be a wise measure of public policy to encourage by appropriate legislation the establishment of mail steamship communication with the Mexican Central, American South and American Trans-Pacific ports.

The popularity of the money-order system is shown by the increase in its operation from a million dollars in 1865 to one hundred millions in the past year. The business has been self-supporting for five years, with a slight margin of profit. He recommends the reduction of the cost of money orders not exceeding five dollars to five cents, and in excession of the maximum limit to one hundred dollars. The operations of the letter carrier system are stated as being highly satisfactory.

HOW SHALL THE ELECTION OF GOVERNOR BE DETERMINED?

BANGOR, Nov. 24, 1880.

To the Editor of the Whig & Courier.

I was glad to read your article in this morning's paper concerning the rightful ascertaining of the result of the election for Governor of the State. From articles that have appeared in various newspapers and from comments made therein by many persons whom I have met, it appears that there is a good deal of feeling abroad in relation to the question, "Who is to be the next Governor of Maine?" I have been written to myself, several times, and asked just that question, but it is one that I have been unable to answer. Setting aside all questions as to how the votes are to be counted which have been thrown for a dozen or more Plaisteds, all the votes thrown for all the Plaisteds combined, constitute only a plurality and not a majority of the votes cast; and then the question arises, "Is a plurality or a majority of the votes cast at the last election required to elect the Governor?" So far as I can learn, the opinion is a very general one, that while there is no doubt that the Legislature intended that the amendment to the Constitution electing the Governor by a plurality instead of a majority of votes, should apply to the election of 1880, the action taken thereupon was not such as will make the change constitutionally apply to the election just past. But on the other hand, I find men who for reasons of supposed policy or otherwise, think the question ought not to be mooted, but that having made the attempt to establish this rule, the action should be allowed to stand as though legally consummated.

Is this right? I believe the people of Maine are law-abiding people, and while ready to abide by the law that they are equally ready to insist upon knowing what is the law, and are not ready to yield their legal rights to the policy or the whims or the sensitiveness of anybody. The people will demand that whoever occupies the chair of State for the years 1881 and 1882 shall be legally and rightfully there. They would be satisfied with nothing less in 1880, they will be satisfied with nothing less in 1881. As one who voted in September for Governor Davis, it is to the official examination of the returns General Plaisted has received votes enough to legally entitle him to the gubernatorial chair, I am in favor of seeing to it that he is placed there; if Governor Davis has received votes enough to legally entitle him to the seat, I for one shall insist that he shall have it; if no person has received votes enough to legally entitle him to the seat, then there has been no election, and it will remain for the incoming Legislature to elect a Governor. And it seems to me—and I but echo the sentiments of scores with whom I have conversed upon the matter—that the first thing to be done is to ascertain beyond dispute how many votes are necessary to elect, whether a plurality or a majority, and the only way in which this can be done is to obtain the opinion of the Supreme Court upon the question. If the Governor and Council, who alone (besides the Legislature) are authorized to ask questions of the Court, have any hesitancy about sending this important question to the Court, I think petitions should be sent calling on them in the name of the "plain people" of the State to take this important step so that, when the Legislature assembles they will have a plain duty before them and a plain understanding of the requirements of the law. I sincerely hope that this will be done, and done at once.

Yours, A REPUBLICAN.

GARDINER, Nov. 24th, 1880.

To the Editor of the Whig & Courier.

DEAR SIR: Your article in to-day's issue under the head of "No counting-in or counting-out," meets with the hearty approval of every true Republican here, and the sentiment therein expressed should be endorsed by every Republican in the State. REPUBLICAN.

WATERVILLE, Nov. 24, 1880.

To Capt. C. A. Boutelle:

I want to thank you for your editorial in THE WHIG of to-day. In my judgment we should adhere to the strict letter of the law. We are not certainly called upon to violate the law in order that our political enemies may reap the advantage.

A STALWART.

AUGUSTA, Nov. 24, 1880.

To the Editor of the Whig:

I have just read with great satisfaction your able and unanswerable editorial in the WHIG of this date, on "No counting in or counting out." You take high ground. If General Plaisted has a plurality of the votes, no matter if there is only a plurality of one vote, and if a plurality elects a Governor, then let him be declared Governor without any questioning. But if the amendment of the Constitution adopted in September, does not apply to the September election, then let the Legislature elect in a legal way a legal Governor for Maine. We cannot afford to violate the law for any reason. You announce the right doctrine. Let us have no "counting in" or "counting out," but let us do right and obey the Constitution and the laws and have a Chief Magistrate lawfully chosen. Yours,

ALWAYS A REPUBLICAN.

EX-PRESIDENTIAL LIFE SENATORS.

The public owe Senator Blaine a debt of gratitude for puncturing what has always seemed to us one of the flimsiest of political bubbles, viz: the proposition that ex-Presidents of the United States shall become United States Senators for life. The incongruity, inequality and difficulty involved in the scheme have been so clearly demonstrated by Mr. Blaine that it is to be hoped that we have heard the last of it. The underlying idea of its advocates always seemed to be the providing of an asylum for ex-Presidents; but they ignore the fact that a President might render himself so obnoxious and prove so undesirable a functionary during a term of four years, that to saddle him upon the Senate for his lifetime would be a public calamity. As it is, the people can pass upon the merits of a Chief Magistrate, and if they choose can re-elect him to the highest office, but there have been in the past and may be in the future Presidents who would prove very undesirable as Senators for life.

The Boston *Journal* says: "It is the general opinion that Senator Blaine has ruined the proposition to make ex-Presidents Senators for life. He literally crushed the life out of it."

POLITICAL NOTES.

The official vote of New Jersey for Governor gives Ludlow, Dem., majority over Potts 651.

Official vote in Massachusetts for Governor: Long 164,897, Thompson 111,347, Sargent (Greenback) 4,864, Almy 1,061; scattering 88.

People in the vicinity of Barnum's menagerie storehouse in Bridgeport, Ct., are rather nervous at the danger of escape of the wild tigers of the forest and other pets. A Borneo bear got loose Friday, but was finally enticed into a cage by a show of raw beef.

HOW CHALMERS WAS COUNTED IN.

OVER FIVE THOUSAND VOTES THROWN OUT ON VARIOUS PRETEXTS.

[From the Vicksburg (Miss) Herald, Nov. 16.]

We have already expressed, mildly but firmly, our opinion about the election in this district, but have never been able until how to give the figures, from the different counties. The figures returned by the Election Commissioners to the Secretary of State are as follows:

Counties.	Chalmers.	Lynch.
Adams,	1,387	978
Bolivar,	901	879
Chalbornev,	1,051	288
Coahoma,	225	552
Issaquena,	59	333
Jefferson,	351	136
Quitman,	153	83
Sharkey,	434	175
Tallahatchie,	299	606
Warren,	1,014	57
Washington,	1,667	772
Williams,	1,631	814
Total,	9,172	5,373

We give below the votes received and counted by the Precinct Inspectors. But which were thrown out by the Election Commissioners of the various counties on account of alleged irregularities and informalities. In Jefferson county the votes were not thrown out, but one ballot-box with a large number of votes was shotgunned out. We have not the figures from Coahoma, but learn that Chalmers was beaten between 700 and 800 votes, and that the Commissioners threw out every vote in that county but one! As we have not the exact figures we omit the county from the list.

LIST OF VOTES THROWN OUT.

Counties	Chalmers.	Lynch
Adams,	32	316
Bolivar,	102	736
Issaquena,	114	755
Jefferson,	93	250
Warren,	26	2,329
Washington,	356	526
Total,	719	4,642
		716
		5,358

This list shows that in one district in Mississippi 5,358 ballots were thrown out, and this does not include Coahoma, where all the boxes, save one, were thrown out. What other "work" was done we know not, but we do know that the above is enough to last awhile.

Our readers should reflect seriously on this business. Every good citizen is more or less interested in it. It is alleged that this is done in the interest of the Democratic party, and the party is asked by Gen. Chalmers's organ to carry it. It is not done in the interest of the Democratic party or the best interests of the people, and the party, the officials, the district, and the State should positively refuse to countenance it. It is done in a futile effort to force a man into Congress regardless of the injury it will do to our party, to our good name, and to our State. As other who has served the Democratic party selected no one to run in the State and the South, we spurn it and denounce it before the whole world.

THE CONSTITUTIONAL AMENDMENT.

The following is the text of an interesting circular distributed among the Fusionists by their leaders prior to our recent State election:

TO THE UNION PARTY OF MAINE.

Your Committee would respectfully advise:

First. That every Unionist vote No upon Hale's Constitutional Amendment.

Second. That there be a guard over the check list and ballot box, of at least three men from the opening to the close of the polls; that every voter's name be checked, and when the vote is counted see if the check list and votes agree, and be sure and keep the crowd away from the ballot box when the count is made, so that there can be a fair count and no votes added.

Third. If there is any unfairness used against the Unionists in getting our names upon the check list, have the evidence of such case as strong as possible for future use. If there are any cases of bribery or intimidation, get all the evidence possible for future use.

Your committee recommend the first to your consideration because the amendment was a trap set to make Davis the next Governor, the Republicans knowing that they have not a majority of the people. The second is recommended to your consideration because we know that there were about five thousand Democrats who staid away from the polls last year, which added to the vote makes it evident that the ballot box was stuffed; and your Committee have reason to believe from evidence before them, that there were many places where there were more votes than names checked on the lists last year.

Your Committee recommend the third to your consideration because there is abundant evidence to show that we have been treated with much unfairness. We have a large amount of evidence sufficient to cause us to believe that thousands of ballots were purchased last year, and we know of many cases of intimidation by using the prohibitory law—forcing men to vote the Republican ticket—or have their business interfered with. The Union party of the State of Maine have a majority of nine thousand to-day, and the gallant Gen. Plaisted will be our next Governor,—unless we are cheated.

Have all evidence of cheating in any way, shape or manner ready at hand; for the final test of fair-dealing will not be left with the Courts of Maine, who have decided that three is a majority of seven; but it will come up before the House of Representatives, and then we shall be treated justly.

Remember we are not fighting the Presidential campaign now; we are fighting the corrupt management of Blaine & Co.

(Work! Work!! Work!!! and we shall win a glorious victory.

Chairman of Democratic Executive Committee.

F. W. HILL,
Chairman of the Greenback Executive Committee.

A SON OF THE ORIENT.

There arrived at New York, on Saturday, on the steamship City of Brussels, from Liverpool, Mr. Escotally Hiptala, a Bombay merchant prince of almost untold wealth, who brings with him his four native wives, Yaccerbal, Allah Bundi, Thanajan and Quindabal. These were in charge of another woman who glorifies in the name of Bhoonbal Essenuuch Abdoolala Samall Jee. Besides these there were numerous attendants, dressed in odd and curious costumes. The party was accompanied by Mr. Harry W. French, of Boston, who is well known in Bangor. He married a daughter of Capt. Flowers, of this city, and intended for the ministry here, but which he was compelled to abandon on account of his health. Mr. French took a reporter into the luxurious department of the son of the Orient, where he interviewed the gentleman and his wives, one of whom is but 12 years old.

While Deputy Surveyor J. E. Welch was examining the wonderful costumes contained in the trunks of the Bombay merchant, the reporter asked of the latter the object of his visit to this country, to which he replied, in very good English, "I have come here a-pleasure see the United States of America. Mr. French and I are old friends, and from him I have heard so much of this country that I at last determined to visit it, and here I am. I am here simply on pleasure, and as a private individual."

"I am afraid your privacy will be difficult to maintain with so large a retinue surrounding you," ventured the reporter.

"It is my intention to take all my people with me. I shall leave the greater part here while I travel through the country. I could not quit my native place without taking my household with me. To do so would have been very prejudicial to my standing."

"May I ask in what manner you find employment for your numerous servants?" queried the reporter.

"Each has certain things to do. With us no servant does two things, and, besides, when I get tired and weary, I make them dance me. They are all good musicians. During our trip across they had plenty of opportunity for practice, as in that time some of our most solemn feasts took place. To the last of these we invited all the passengers, and they appeared to be highly amused. Then I have also my cooker, my snake charmer and my women who dance for me after dinner. When the Prince of Wales visited Bombay some years ago, I entertained him, and on that occasion, my wives showed him the Nautch dance."

The party will doubtless visit Boston, as Mr. French and family are Bostonians.

A PRESENT FROM QUEEN VICTORIA.

There was received at the White House, Tuesday, a massive desk or writing table, a present from Queen Victoria to the President of the United States. It is made of live oak, weight 1300 pounds, elaborately carved and a magnificent specimen of workmanship. I bear the following inscription: "H. M. S. Resolute, forming a part of the expedition sent in search of Sir John Franklin in 1852; was abandoned in lat. 74° 41', lon. 101° 22' West, on the 15th of May, 1854; she was discovered and extricated, September 1, 1855, in lat. 67° North, by Capt. Budington of the United States Whaler George Henry. The ship was purchased, fitted out and sent to England as a gift to Her Majesty Queen Victoria, by the President and people of the United States, as a token of good will and friendship. This table was made from her timbers when she was broken up, and is presented by the Queen of Great Britain and Ireland to the President of the United States, as a memorial of courtesy and loving kindness which dictated the offer of the gift of the Resolute."

HENRY WARD BEECHER SAID:

"It is every man's duty to provide for his family. That provision must include its future competence. That provision, in so far as it is material, men ordinarily seek to secure by their own accumulations and investments. But all these are uncertain. The man that is rich to-day, by causes beyond his reach is poor to-morrow. A war in China, a revolution in Europe, a rebellion in America, overwhelms thousands of fortunes in every commercial community. Just so wise,

Small Pox in Gardiner—False Reports.

The current reports in this section of the State that there is a large number of small pox cases in this city, is without foundation in fact. There has been only one new case in two weeks, a few others who have been sick are recovering. The largest number of sick at one time was six, but report had it as high as thirty. THE STELLARTON MINE DISASTER.

Clearing the Pit.

HALIFAX, Nov. 24. At Stellarton the cage pit has been opened and the air said to be tolerably clear as the mine has been shutup more than a week. The exploring party did not go further than the foot of the shaft. A cat was found in the mine which had been in the pit since the day of the explosion and was seemingly unhurt, showing that there cannot be much after damp in the cage pit. It is proposed to ventilate the cage pit by forcing steam down in a jet and allowing it to escape at the bottom, heating the shaft and causing the heated air to ascend. This was formerly done by means of a furnace. One hundred dollars has been received from Cyrus W. Field, of New York, for the relief fund.

The match consisted of six rounds and was warmly contested throughout, some remarkable fine sparring being exhibited on both sides.

Arrangements have been made with the railroads as follows: Grand Trunk, one fare for the round trip; Maine Central, one fare for the round trip; Portland & Ogdensburg, one fare for the round trip.

BREVEALT. Last evening a very pleasant marriage ceremony took place at the St. John's Catholic church, the parties interested being Mr. Christopher Toole and Miss Agnes Gallagher. After the ceremony a reception was held at the residence of the bride's uncle, on Broadway, where refreshments were served and congratulations extended. The presents were numerous and some of them very handsome. Mr. Toole is the well known pedestrian who has figured quite extensively in the numerous walking matches in this vicinity.

PITTSFIELD NEWS. Our correspondent writes: Extremely cold weather has prevailed for several days, and the skaters are enjoying the good skating. Our village schools are progressing nicely under their present instructors. F. A. Twitchell of Bates College, is teaching the Grammar school and Miss Orgatt, the Primary. Mr. N. L. Perkins, formerly of the firm of Dexter & Perkins has opened a variety store on the corner of Main and Park streets. Rev. Theodore Gerlish, of Belfast, spoke at the Methodist chapel at Sunday evening.

KANT MEN OF MANY KINDS. The worthy State Superintendent of Schools is beginning to find out that nearly everybody in the State who has anything to do with educational matters, has a hobby of his own in regard to what books should be studied in the school room. One man who is interested in agriculture, wants an elementary knowledge of farming taught in the schools; the temperance people are hard at work for the introduction of temperance text books. Some hard-headed mechanics want more industrial education; while business men complain that the boys are ignorant of business when they graduate. In a multitude of counsellors there is confusion.

DEATH IN THE WOODS. About one month ago William Farmer, of Garland, went to the Iron Works, where he had engaged to work during the coming winter. He was taken sick soon after his arrival and after a short illness died of congestion of the lungs. He was considered dangerously ill until a few hours before his death. The deceased was about fifty-nine years old, and his remains were taken home for burial.

PRESENTATION. Last evening the night force employed on the WHIG presented Mr. Owen with a handsome silver fruit dish, bearing the following inscription: "Howard Owen, from the boys in the WHIG Office." During the time that Mr. Owen has so ably occupied the position of managing editor of this paper, he most friendly relations have existed between himself and the entire force, and it is with feelings of deep regret that it has now become necessary to say good bye. The presentation was a perfect surprise to the gentleman, who accepted the token of esteem in a very brief remark, in which he referred in a feeling manner to the many pleasant days that he has passed in this city.

DAMAGED BY THE ICE. The ice increased perceptibly in thickness Tuesday night, and the only opening to amount to anything was made by the steamer Columbridge when she passed down river yesterday morning. The ice is very strong, and the steamer had slow, hard work, as far as the ice extended. She was in sight fully twelve minutes after she left her dock, the usual time being only two or three minutes. The tow which left this port Tuesday night was a large one, and two tugs were employed to take it down. On the way down the tugs had the copper stripped off and the planking cut deep on both sides forward. The schooner Sea Foam, Capt. Conant, was cut through to her timbers on both bows, and also had her boat stove badly and main boom broken by another vessel twitching up astern. The schooner Joseph S. Stover lost jibboom and all attached, and a small fisherman swamped and left at Sandy Point.

A STRANGE DISEASE. It is reported that Mr. Charles Winslow of Falmouth, has a pig and the animal was fed with vegetable waste from the city, which evidently contained some kind of poison, perhaps Paris green. The pig was taken violently sick and it was thought would die. Efforts were made to save its life, but they apparently had little effect. The disease then took a new phase. The pig naturally white, began to turn black at the tip of his nose. Gradually the blackness spread until his back and sides were as black as a stove funnel. He remained in this condition for about three days. Then, strange to say, he began to recover. Commencing at the tip of his nose as before the pig turned white again, and is now as well as ever. He was sick full about a week.

BATES COLLEGE. The next commencement at Bates will be radically different from any preceding commencement week. The present Senior class have voted to have no commencement concert, and perhaps have no public exercises of Class Day. The doing away with the concert is owing to the lack of sufficient patronage in the past to enable the graduating class to pay for the talent employed, without putting their hands pretty deep into their own pockets. The expenses of the Senior year are necessarily quite large, and to pay in addition to these from $15 to $50 apiece, that the public may have the benefit of a first-class concert, is rather poor financial management. The present Senior class have therefore decided to break away from the old established custom, hoping that other classes may follow their custom, till the time comes that a concert given by some of the best talent in the country can become self-supporting.

MAINE HISTORICAL SOCIETY. A special meeting of the Maine Historical Society was held at the Library room in Brunswick, Tuesday afternoon, to consider the proposition of the Portland members to remove the library and cabinet to Portland. There was an unusually large attendance, the Portland members being out in full force. The terms which they presented were the free use of the suite of rooms recently occupied by the Natural History Society in the City Building, which were made in writing by the Mayor, which the Portland gentleman agreed to fit up without expense to the society, and they also proposed to pay the expense of removing the library and cabinet and placing them in position. These terms were presented by Mr. Pierce and were advocated at some length by Ex-Gov. Washburn, who very gently spoke for the Portland members. He thought the library would be more useful, by being more accessible to the members of the society; that an assistant librarian could be appointed at a very small expense, and the library kept opened several hours each day. It was understood that the expense of the assistant librarian, if it exceeded the present expense, should be paid by the Portland members; at any rate there should be no extra draft upon the funds of the society. After considerable discussion it was voted to accept the proposition, and a committee was appointed to carry the vote into effect. Gov. Washburn offered several amendments to the by-laws, to be acted upon at the annual meeting which will be held in Brunswick at the usual time.

THE WRONG CUSTOMER. During the entertainment Tuesday evening one of the Ind ans connected with the Buffalo Bill Combination had occasion to leave the hall and go down to the hotel after something he had forgotten. When he reached the corner of Exchange street some of the loafers thought they would have some fun with him, so they began to make insulting remarks. "Big Injin," however, soon proved to them that they had hit upon the wrong customer, as he seized an Japanese took which he let fly into the crowd and then started to the same direction himself. The rock missed its mark and the crowd concluded that discretion was the better part of valor so they made tracks.

Amusement Notes.

Gilmore and Mack's Specialty and Pantomine troupe, numbering twenty-five people will appear in this city early in December.

Mrs. H. E. H. Carter's Opera Company will present the opera of "Martha" in Norombega Hall on Thursday evening, December 9th, under the management of the Buskin Club. The company includes Mrs. E. E. H. Carter, Soprano, Miss Julia E. May, Contralto, Mr. Alfred Wickle, Tenor, Mr. Seth M. Crane, Basso, and Mr. W. E. Taylor, Musical Director.

Messrs. Thayer, Smith & Moulton play Chicago seven entertainments in New England this week, and are managing more companies on this circuit the present season than have ever before been handled by one firm in the East.

Lotta, who is playing at the Park the most profitable engagement the ever fair lady has had in Boston, refused an offer of $3000 a week for her next open time in New England, but accepted an offer from Manager C. H. Smith of $10,000 for three weeks, during which she will visit all the principal eastern cities between New York and Bangor.

There are two classes of four actres es each, who are antithetical mysteries. They are Fannie Davenport, Maud Granger, Kate Claxton and Rose Eytinge on one hand, and Charlotte Thompson, Mrs. D. P. Bowers, Mrs. Chanfrau and Jane Coe on the other. The mystery is how the former quartet have made so much money with so little talent, and the larger four so little money with so much talent.—*New York Mercury.*

Harry Bloodgood's new piece, written for him by Messrs. Dexter Smith and Archie Gordon, is reported to have for its basis the standing at a railway junction of several theatrical and opera companies who conclude to make the best of a bad situation, and give an entertainment to while away the time. It will be seen that the motive is somewhat similar to that of "Fun on the Bristol" and kindred pieces; but otherwise it is said the treatment is original with the author. It is rumored that the Fitchburg Railroad Company pays a handsome sum for the advertisement it will get by having the scene of the piece laid in one of its stations.

FROM DEXTER.

Persistent Burglars—Death of an Old Citizen—Social News.

DEXTER, Nov. 23.

Burglars and would-be thieves appear to be no respecters of persons or professions. A few weeks ago, Rev. J. S. Richards, Jr., formerly pastor of the Congregational church here, but now settled over the society at Waterford, went to his home in the evening, and proceeded for some little time to occupy himself in his study. His wife being absent in a neighboring town, his sister was acting as his housekeeper, and shortly after Mr. R.'s return, she retired to her chamber and went to bed. A little while afterwards, Mr. Richards went into the front entry, and was considerably surprised to find the door open as he clearly recollected having locked it when he came in. He thought that his sister must have opened it for some reason, forgetting to close it again. He locked it a second time, and soon went to bed. Shortly after this, something was thrown against the house, and thinking it might be the work of mischievous boys, he arose and went out upon the piazza, in the dark, to see what he could discover. As soon as he had opened the door, and passed the door, a man rushed out by him, and disappeared in the darkness. His sister was aroused in the meantime, and was of course much frightened; she therefore made arrangements and camped down upon the sofa in the parlor, leaving a lamp burning in the room. Later in the night she was aroused from her sleep, and was alarmed to find the lamp extinguished. As it was well supplied with oil she knew that it must have been put out intentionally. She spoke to her brother, who was in his room on the same floor, and on proceeding to examine the premises, he found the front door again unlocked and open. He locked out the key, and upon the end of it found two well defined sets of marks, showing that it had twice been grappled and turned from the outside. The theory is that the thief had entered the first time soon after Mr. Richards returned in the evening, and secreted himself in the house, and that the stone thrown against the building was a pre-arranged signal from some outside confederate; that when Mr. R. arose the fellow inside concluded to make his escape while there was yet an opportunity; that the second entry was made after the inmates of the house were again asleep; that the thief was in the parlor, and perceiving that he had aroused the lady, quickly extinguished the light, and made off. Mr. Richards had this afternoon received some money from a collector of a store, and given receipt for the same, in presence of quite a number of people; and he thinks somebody must have observed the transaction, and concluding that he had received a quarter's salary, taken measures to possess himself of the same. One of Mr. R.'s neighbors says that a tramp was made upon his door the same night. I hear rumors that somebody has been arrested on suspicion of being connected with these offences.

Mr. Joseph Morgridge, for many years a respected citizen of this town, died on Thursday of last week at the residence of his son in Parkman, having last June attained the advanced age of 86 years. His funeral was held last Sunday, the services being conducted in accordance with the special request of the deceased, by Rev. Amos Redlon, of Hallowell. Mr. Morgridge is very well known in this part of the state, as having been possessed of a memory that was really phenomenal; it is the testimony of those who are in a position to know, that he could repeat more Scripture, and name more historical facts, secular as well as religious, than any other man in the State. He was thoroughly familiar with the history of all the political parties, and has always been an uncompromising friend of freedom. In the Harrison Presidential campaign, he achieved considerable notority through the nacious political songs of which he was the author, and he has written more or less in this vein ever since. Some nine weeks ago he went to live with his son, above mentioned, and was shortly after prostrated by what proved to be his last sickness. His mental faculties remained unimpaired even to the end, and he went down to the grave full of hope and confidence in a blissful hereafter.

The mercury Tuesday morning was at a point below zero.

There is some three or four inches of snow here; at Parkman however, and other places in that neighborhood, there is more, it being from seven to ten inches deep, with still more in the vicinity of the lake.

Monday evening, Alex. Merrill, Esq., of this town, received a despatch, dated New York, stating that his son, William Merrill, had died suddenly on board the eastern bound train, and that his remains were in the hands of the undertaker, who awaited instructions. Another and later dispatch indicates that the death occurred on the train while in Wyoming Territory, and that the remains were at Laramie. At present there is a disagreeable uncertainty connected with the matter. Deceased was about thirty years of age, and went to California ten years ago. He has been in poor health for several years and was on his way home when death overtook him. It is a sad case.

The engineers in the employ of the M. C. Railroad arrived here Monday evening, and Tuesday they were operating about the village with compass and other implements. Their operations have reference to the railroad extension from this place to Piscataquis, which is now talked about considerably in different quarters.

UNITY HALL.

A Brilliant Gathering.

Last evening Unity Hall was the scene of one of the most brilliant parties that has assembled in this city for a long time. The ladies were out in full numbers and their costumes were simply elegant. It would be hard to find a city of its size that can boast of a greater number of handsome ladies than Bangor, and her beauty was certainly well represented last evening. It was a picture worthy of an artist, as the ladies flitted back and forth in the mazy waltz, their brilliant costumes blending perfectly under the gas light, while their eyes sparkled and their cheeks flushed with pleasure, as their feet beat perfect time to the super music furnished by Andrews' Orchestra. The programme was admirably arranged and afforded a variety of dances, which were fully enjoyed by all present. At interm salon choice refreshments were served, small tables being provided, so that the company separated in little groups, making the affair exceedingly sociable. After a brief rest the dancing was resumed and continued until a late hour, with unabated interest.

In closing this hurriedly written notice we desire to say that too much praise cannot be accorded the young ladies, who planned and assumed entire charge of this pleasant party. They have been indefatigable in their labors, and the success which attended them must be highly gratifying. The object was to raise money for the Unity Club, and the thanks of that organization are certainly due this committee.

[Written for the Whig and Courier.]

DAME GRAY'S THANKSGIVING.

BY REBECCA R. PIERCE.

One night in November, dreary and cold,
Poor Dame Gray, so wrinkled and old,
Sat by her Kitchen fire;
Husband and children she had not;
She lived alone in a little cot,
With nothing her heart to inspire!

And sitting there in the embers were cold,
Poor Dame Gray, so fadeli and old,
Realized to her sorrow,
Of one dainty morsel her cupboard was bare,
And she sighed as she thought of the bountiful fare
For the Thanksgiving feasts on the morrow.

So sad and plaintif was her lot,
The good dame ne'er for a moment thought
Of the joy that for her was in store.
For to next morning, what did she see?
A turkey, plump as a bird could be,
Was tied to the latch of her door!

And close beside it, to gladden her eyes,
A basket, filled with cakes and pies,
And other things for her keeping;
So dazed for a minute or two was she,
The glad dame pinched herself to see
If she was awake or sleeping.

And so, with her wants so well supplied,
In the joy of her heart she sat and cried;
And never said or sinner
Of any good thing was ever more glad
Than poor Dame Gray of the gift she had
Of a nice Thanksgiving dinner.

FELLOWS' SYRUP

Consumption, Bronchitis, Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs, would vindicate the claim to the attention of every medical practitioner. Then the statistics of Consumption in America it is a fact so intimate that one death of the entire earth is caused by Consumption alone. If the Syrup is used perseveringly it abates the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels, as such cases *Fellows' Compound Syrup of Hypophosphites* has proved signally the greatest service. The ordinary sense becomes copious and healthy.

This syrup will cure PULMONARY CONSUMPTION in the first stage, and will give great relief and prolong life in the second and third—it will cure ASTHMA, BRONCHITIS, LARYNGITIS, and COUGHS. It will also fill cleanses originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers.

Will find this Syrup of inestimable value. A dose should be taken before public speaking. Aphonia, or the Loss of Voice, is in many cured by few doses. We have known cases where a tiggle dose has been effectual.

S. Eaton, M. D., St. John, N. B., writes: "I had occasion to use your Syrup in a case of Aphonia which yields to no regular treatment; it proved to be all that you claim, and for it, having acted with exceedingly satisfactory and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name, no other preparation is a substitute for this, under any circumstances.

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Influenza, Asthma, Whooping Cough, Croup, and

Every affection of the THROAT, LUNGS AND CHEST, including CONSUMPTION.

A WELL-KNOWN PHYSICIAN WRITES: "It does not dry up a cough, and leave the cause behind, as is the case with most preparations, but loosens it, cleanses the lungs and allays irritation, thus removing the cause of complaint."

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in addition to important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 7½ to 8½ P. M. Sundays from 8½ to 9½ A. M.
